Mini Project 1:ATM System using Python

---

1. Project Title

ATM System using Python

---

2. Problem Statement

To design and implement an ATM system that allows users to perform banking operations such as checking balance, withdrawing money, depositing money and exiting using a menu driven approach.

---

3. Objective

- To simulate basic ATM operations
- To use menu driven programming
- To understand loops and conditional statements
- To implement real-life banking logic

---

4. Tools Used

- Python 3
- VS Code / IDLE

---

5. Description

This project simulates the working of an ATM. The user can select options from the menu to check balance, deposit money, withdraw money or exit. The balance gets updated after each transaction.

---

6. Algorithm

1. Initialize balance
2. Display ATM menu

3. Read user choice
4. If choice is deposit → add amount
5. If choice is withdraw → subtract amount
6. If choice is balance → display balance
7. Repeat until exit

---

7. Program (Python Code)

```
balance = 5000 while True:
   print("\n----- ATM Menu -----")     print("1.
Check Balance")     print("2. Deposit")
print("3. Withdraw")     print("4. Exit")
choice = int(input("Enter your choice: "))
if choice == 1:
      print("Your Balance = Rs.", balance)
elif choice == 2:
      amount = float(input("Enter deposit amount: "))
balance = balance + amount        print("Amount
deposited successfully")     elif choice == 3:

      amount = float(input("Enter withdraw amount: "))
if amount <= balance:
         balance = balance - amount
print("Please collect your cash")        else:
         print("Insufficient balance")
elif choice == 4:
      print("Thank you for using ATM")
break     else:
      print("Invalid choice")
```

8. Sample Output

IDLE Shell 3.11.0

File Edit Shell Debug Options Window Help

```
----- ATM Menu -----
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter your choice: 2
Enter deposit amount: 2000
Amount deposited successfully

----- ATM Menu -----
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter your choice: 1
Your Balance = Rs. 7000.0

----- ATM Menu -----
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter your choice: 3
Enter withdraw amount: 5900
Please collect your cash

----- ATM Menu -----
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter your choice: 1
Your Balance = Rs. 1100.0

----- ATM Menu -----
1. Check Balance
2. Deposit
3. Withdraw
4. Exit
Enter your choice:
```

---

9. Result

The ATM system successfully performs deposit, withdrawal and balance enquiry operations.
